MATERIAL SAFETY DATA SHEET

1. IDENTIFICATION

Product Name:  **LAMP OIL (AMAZING HASTE)**
Other Names: Lamp Oil, Deodorised Kerosene,
Recommended Use: Fuel for lamps
Supplier: TMK Packers Ltd
Address: 2/20 Trugood Drive, East Tamaki. PO Box 258 031, Botany, Manukau 2163
Telephone: (+64) 9 273 3753
Facsimile: (+64) 9 273 3752
Website: [www.tmkpackers.co.nz](http://www.tmkpackers.co.nz)
Emergency phone: National Poison Centre 0800 POISON [ 0800 764 766]

2. HAZARDS IDENTIFICATION

Product is classified as hazardous according to Schedules 1 to 6 of the Hazardous Substances (Minimum Degrees of Hazard) Regulations 2001 of the HSNO Act, 1996.

HSNO Classifications: 3.1D, 6.1E, 6.3B, 9.1B

Signal word: **WARNING**

Hazard Statements:

H227 Combustible liquid
H305 May be harmful if swallowed and enters airways
H316 Causes mild skin irritation
H411 Toxic to aquatic life with long-lasting effects

Prevention Statements:
P102 Keep out of reach of children
P103 Read label before use
P210 Keep away from heat, open flames, hot surfaces. No smoking.
P273 Avoid release to environment

3. COMPOSITION: Information on Ingredients

4. FIRST AID MEASURES
For advice, contact National Poison Centre (0800 POISON ; 0800 764 766) or a doctor. Have product container or label available.

**Swallowed**
If swallowed, do NOT induce vomiting. Rinse mouth. Give water to sip. If spontaneous vomiting occurs, hold patients head below hips to avoid possible aspiration of vomitus into lungs. Get medical attention.

**Skin Contact**
If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water. If irritation persists get medical attention.

**Eye Contact**
Hold eyelids apart and flush the eye continuously with running water. Continue flushing for at least 15 minutes. Remove contact lenses if present and easy to do, after the first 5 minutes and continue rinsing. Get medical attention if irritation persists.

**Inhalation**
Move the victim to fresh air immediately. Keep warm and at rest until recovered. Get medical attention if rapid recovery does not occur.

**First Aid Facilities:** Provide eye bath and hand washing facilities.

**Advice to Doctor:** Treat according to symptoms. Risk of aspiration into lungs with potential to cause chemical pneumonitis.

## 5. FIRE FIGHTING MEASURES

**Flashpoint:** > 61 < 93°C

**Flammable limits:** LFL : 0.6% UFL: 7.0%

**Extinguishing media:**
Foam, CO2 or dry chemical. Use water spray or water fog on large fires only.

**Fire & Explosion hazards:**
Combustible liquid. Do not breathe smoke, gases or vapours generated in a fire. Decomposition products may be toxic.

**Firefighting Equipment:**
Full protective clothing and self-contained breathing apparatus (SCBA).

**In event of fire:**
- Alert Fire Bridge (111); advise location and nature of hazard.
- Keep bystanders away.
- Wear breathing apparatus and protective gloves.
6. ACCIDENTAL RELEASE MEASURES

Emergency Procedures & Containment:
Refer to “Fire Fighting Measures”, “First Aid Measures” and “Stability and Reactivity”.

Minor spills
- Clean up spills immediately.
- Remove all ignition sources.
- Avoid breathing vapours and contact with skin and eyes.
- Wear personal protective equipment.
- Contain and absorb small quantities with vermiculite or other absorbent material.
- Collect residues and waste material in a labelled container.
- Seal container and dispose of safely.

Major spills
- Clear area of personnel and move upwind.
- Alert Fire Bridge (111); advise location and nature of hazard.
- Wear breathing apparatus plus protective gloves.
- Eliminate ignition sources, naked lights. No smoking.
- Stop leak if safe to do so.
- Water spray or water fog may be used to disperse or absorb vapour.
- Contain spill with sand, earth or vermiculite.
- Use spark-free shovels and explosion proof equipment.
- Prevent by any means available, spillage from entering drains, sewers, watercourses, or low-lying areas.
- Increase ventilation.
- Collect recoverable product into labeled contains for recycling.
- Absorb remaining product with sand, earth or vermiculite.
- Collect solid residues and seal in labelled drums for disposal.
- Wash area and prevent run off into drains.
- If contamination of drains or waterways occurs, advise Emergency Services and Local or Regional authority.

7. HANDLING AND STORAGE
Precautions for safe handling:
Read product label before use. Use in well-ventilated area. Avoid smoking, naked lights or ignition sources. Avoid all personal contact including by inhalation. Wear personal protective equipment and clothing including gloves and wash hands with soap and water after handling.

Conditions for safe storage:
Store in original packaging in a cool, dry well-ventilated place out of reach of children. Check containers periodically for leaks or distortion.

Incompatible materials:
Oxidising agents.

8. EXPOSURE CONTROLS : PERSONAL PROTECTION

Health Exposure Standards:
A Workplace Exposure Standard (WES) has been set by the Occupational Safety and Health Service, NZ Department of Labour for a component in this product.

WES-TWA
Petroleum distillates 165 ppm (1200 mg/m³)

Biological limit values: None established

Engineering Controls:
Ventilation: Avoid breathing vapours. Use product outdoors or in well-ventilated area.

Personal Protective Equipment:
Respiratory Protection: Not normally required. Wear a SAA approved respirator when using in confined area or where over-exposure risk exists.

Eye Protection: Protect eyes from splashes. Always use safety glasses with side shields, or wear goggles.

Skin/ Body Protection:
Wear gloves, e.g. PVC. Wear safety footwear or safety gumboots, e.g. rubber, and clothing with long sleeves and long trousers or coveralls.

9. PHYSICAL AND CHEMICAL PROPERTIES

The values listed are indicative of this product’s physical and chemical properties.

10. STABILITY AND REACTIVITY

Chemical Stability: Stable at room temperature and pressure.

Conditions to avoid: Contact with oxidizing agents.

Hazardous decomposition products: No decomposition products except on burning. See “Fire Fighting Measures” and “Hazardous Reactions”.

Hazardous reactions: No specific information available.

11. TOXICOLOGICAL INFORMATION

Acute Effects

Ingestion
If swallowed may cause gastrointestinal tract discomfort with oedema and mucosal ulceration. Symptoms may include burning sensation of mouth and throat, and if large quantity swallowed, nausea, vomiting, weakness or dizziness, slow and shallow respiration, swelling of abdomen, unconsciousness and convulsions. Vomiting may result in aspiration into lungs which may lead to chemical pneumonitis.

Eye Contact
This product may be irritating to the eyes resulting in tearing and redness. Repeated or prolonged exposure will aggravate any symptoms (redness) and may also lead to blurred vision and transient eye damage or ulceration.

Skin Contact
This product is irritating to the skin. Prolonged or repeated exposure may defat skin leading to drying, cracking and possibly non-allergenic contact dermatitis.

Inhalation
Vapours may cause discomfort to the upper respiratory tract. Symptoms of over-exposure may be drowsiness and dizziness accompanied by narcosis, lack of reflexes or co-ordination.

Chronic Effects: Repeated or prolonged exposure to mixed hydrocarbons may result in dizziness, weakness, irritability, lack of concentration and memory loss, tremor of extremities, e.g. fingers, weight loss, anemia, ill-effects to liver and kidneys.

Other Health Effects Information: Not available.
12. ECOLOGICAL INFORMATION

Ecotoxicity:
Aquatic toxicity: This product has been classified as being toxic to aquatic life. Do not discharge product to sewer, drains or waterways.
Persistence/degradability: Not expected to be persistent or bioaccumulative.
Mobility: Product in not miscible with water.
Other information: Not available

Environmental Exposure Standards:
EEL (WATER): Not set
EEL (SOIL): Not set
EEL (SEDIMENTS): Not set

13. DISPOSAL CONSIDERATIONS

Disposal Methods:
Empty packaging should be taken for recycling, recovery or disposal through a suitably qualified or licensed contractor. Care should be taken to ensure compliance with national, regional and local authority regulations. Packaging may still contain product vapours.

14. TRANSPORT INFORMATION

UN Number: 3082
Shipping name: ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S (CONTAINS NAPHTHA PETROLEUM)
Class: 9
Packing group: III
Hazchem code: 3Z

Dangerous Goods Segregation

15. REGULATORY INFORMATION

Country/ Region: New Zealand
Inventory: NZCIL  
Status: Listed  

ERMA New Zealand Approval Code:  
HSR002649  Solvent (Combustible) Group Standard 2006.  
Refer www.ermanz.govt.nz for information on Controls.

16. OTHER INFORMATION

Date of Issue:  27th April, 2010  
Reasons for Issue: Change to format; add heading.  
Replaces:  29th March, 2010  

Abbreviations:
- CAS No: Chemical Abstracts Number
- ERMA: Environmental Risk Management Authority
- HSNO: Hazardous Substances and New Organisms
- NZCI: New Zealand Chemical Inventory
- STEL: Short Term Exposure Limit
- TWA: Time Weighted Average
- WES: Workplace Exposure Standard
